

Town of Livermore Falls

Selectboard Meeting
September 6, 2022

Board: Jim Long, Ernie Souther, Will Kenniston, Bruce Peary

Department Heads: Amanda Allen, Bill Nichols, Mark Holt

Residents/Public: See sign in Sheet

6:30 Pledge of Allegiance

Public Hearing

Jim stated that we have four things to go over, we will go over each topic one at a time and receive input and then the selectmen will meet to discuss and if needed will go to the town attorney at the point.

A. Mobile Food Ordinance:

No questions or comments

6:33 closed this section of hearing.

B. Solar Energy Systems Ordinance:

Arin Quintel from Meadowbrook Road has concerns regarding the solar farm, she would like to see a moratorium in place for 5 years until we get more information to ensure the safety of those that live nearby. The information she is looking for is potential health hazards from all the pesticides and herbicides that they use that will be going into the ground and into the water and this putting a burden on the taxpayers when the clean up needs to be done. Arin also states that she is working on a petition.

Jim states all petitions would be considered.

6:37pm closed this section of the hearing.

C. Special Amusement

Donna Perry asked if two permits would be required for events

One for the event and one for the amplification, because as it reads on page 5 that is my interpretation.

The answer is yes, both are required if amplification is being used.

6:39 closed this section of hearing.

Town of Livermore Falls

D. Ordinance to Allow and Regulate Medical Marijuana Retail Stores, Medical Cultivation Facilities and Medical Marijuana Product Manufacturing Facilities.

Roger Moulton asked if this could be done quickly because he feels like Tom Barker botched the original ordinance prolonging this process and actually would like to see him resign.

Bruce asked for definition of village district: Brandon defined it as Jay town line, the river and down to the shuy corner.

Bruce states we have outgrown our ordinance which states no more than three facilities within the village district, this ordinance would be going forward no more than three which means if a business closes doors another can not open and the business which are already operating would be grandfathered.

Roger stated he has started a petition also in line with the limited Marijuana facilities of not more than three within the district limits.

Jim states again, all petitions will be considered.

6:48 closed this section of hearing.

Jim reminds all that the ordinances and input will be reviewed by the selectmen.

Respectfully submitted by: Doris Austin, Town Clerk
